Cigniti Smart Tools

Analyze business needs, Automate test efforts and Accelerate release cycles

Over the last decade, there has been a lot of transformation in philosophy of testing, and several tools have invaded the testing community. However, conventional tools still do not address gaps that are not big enough yet cannot be ignored. In addition to the gaps, we understand your needs are unique but the market tools provide generic solutions which need a lot of customization. Cigniti has built a set of tools to address these needs, gaps and challenges.

Cigniti Technologies is an Independent Software Testing Services Company, headquartered in Dallas, TX. Cigniti test offerings include TCoE, Testing on Cloud, Enterprise Mobility Testing, Big Data Testing, Functional, Automation, Security and Performance Testing services. Cigniti's workforce is equally distributed between NA & India with a vision to be your local partner. Cigniti's Smart Tools and Cloud Enabled test labs provide cost effective solutions with early Return on Investments. Cigniti is rated at CMMI SVC V1.3 Maturity Level 3 and is ISO 27001:2005 certified organization.
